

• CONCEPT PROJECT

A SNEAKER SHOP THAT *moves*

Design & development of an e-commerce site
for a fictional Zürich sneaker brand.

Swipe

THE IDEA

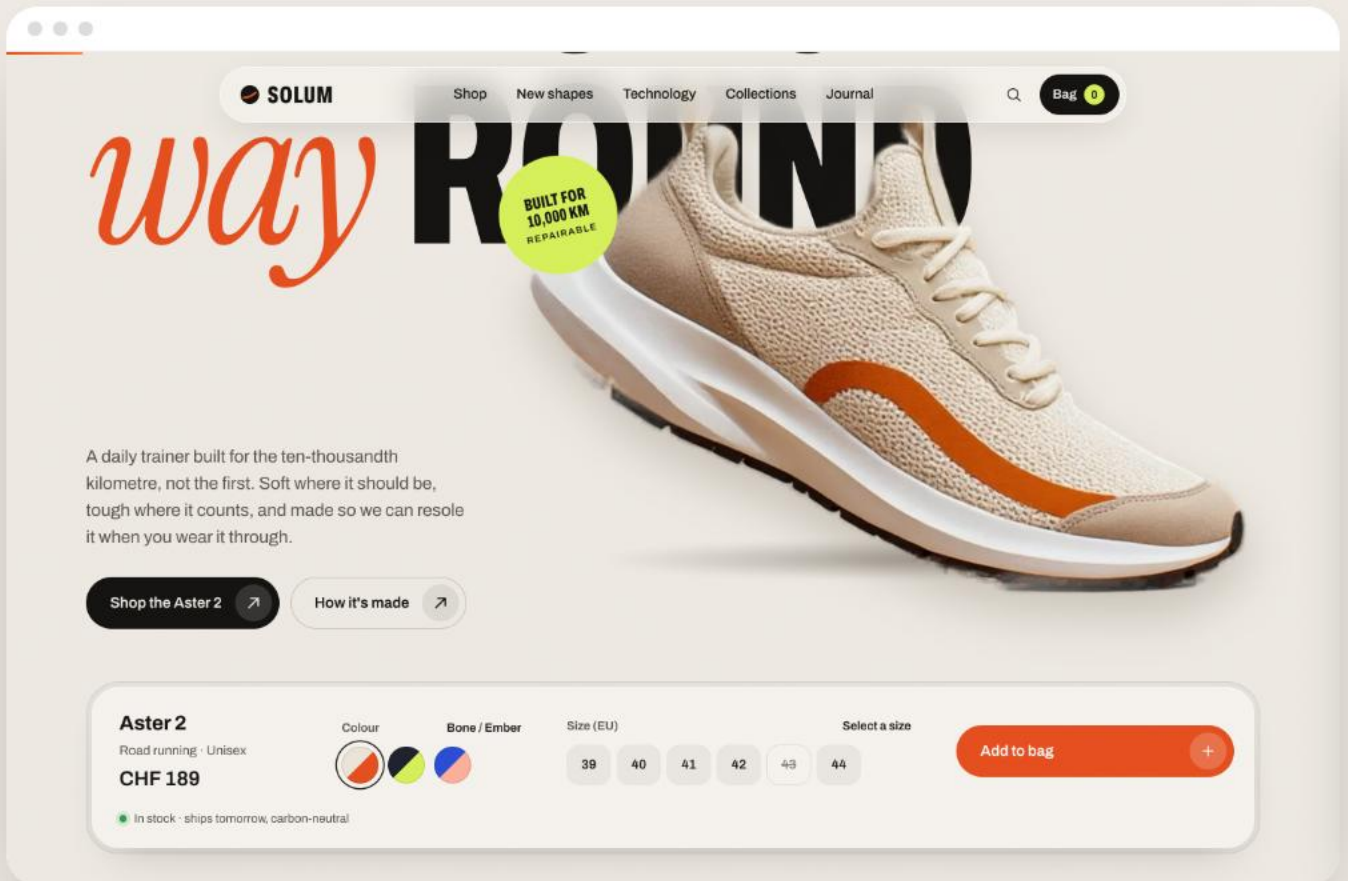

LET THE *product* DO THE TALKING

Premium shoes deserve a shop that feels just as premium. One click on a colour, and the real product shot changes.

• HERO

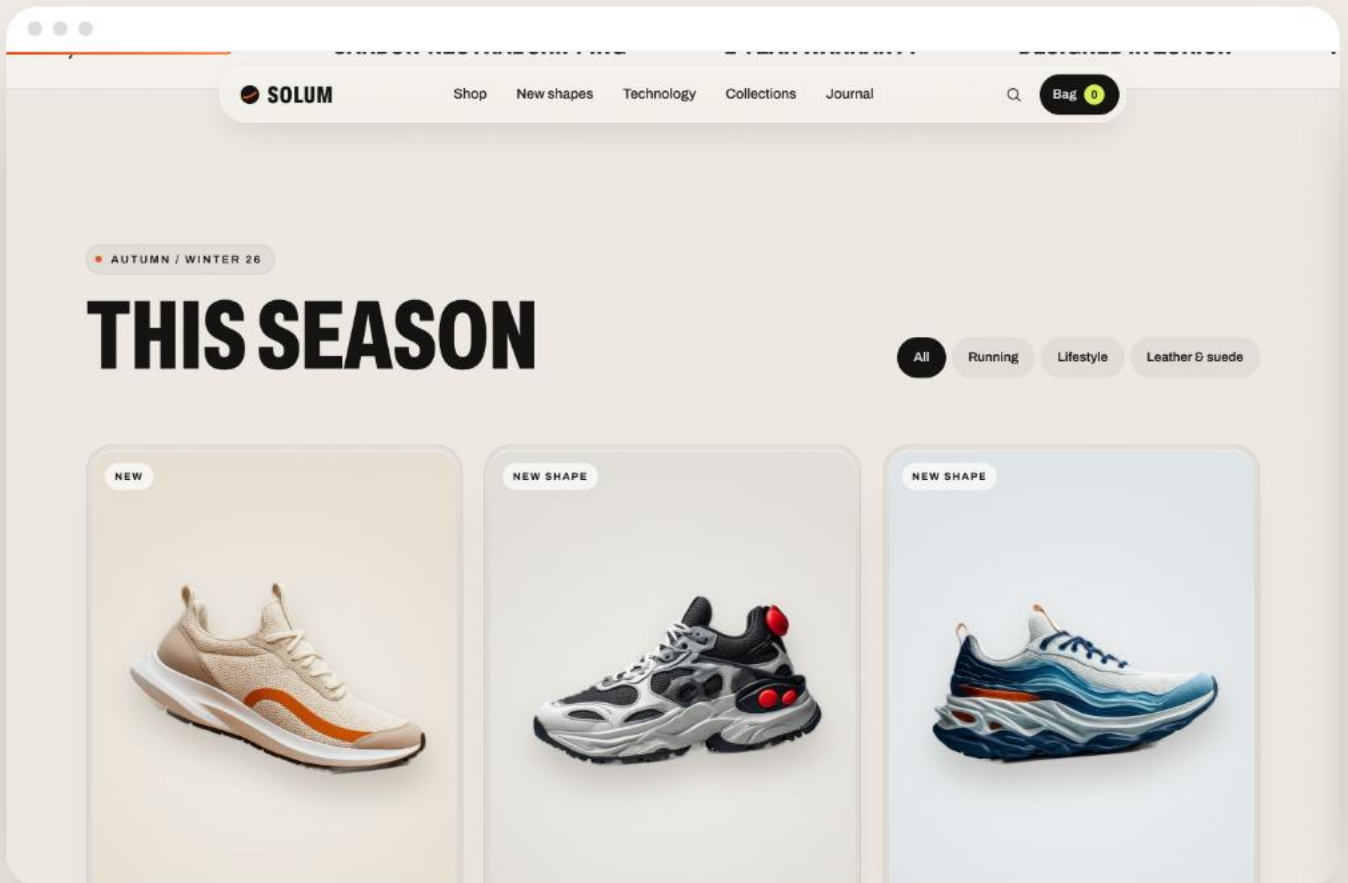

REAL SHOTS, *live* COLOUR SWITCH

- Colour, size and add to bag in one bar
- The shoe flies into the bag

• CATALOGUE

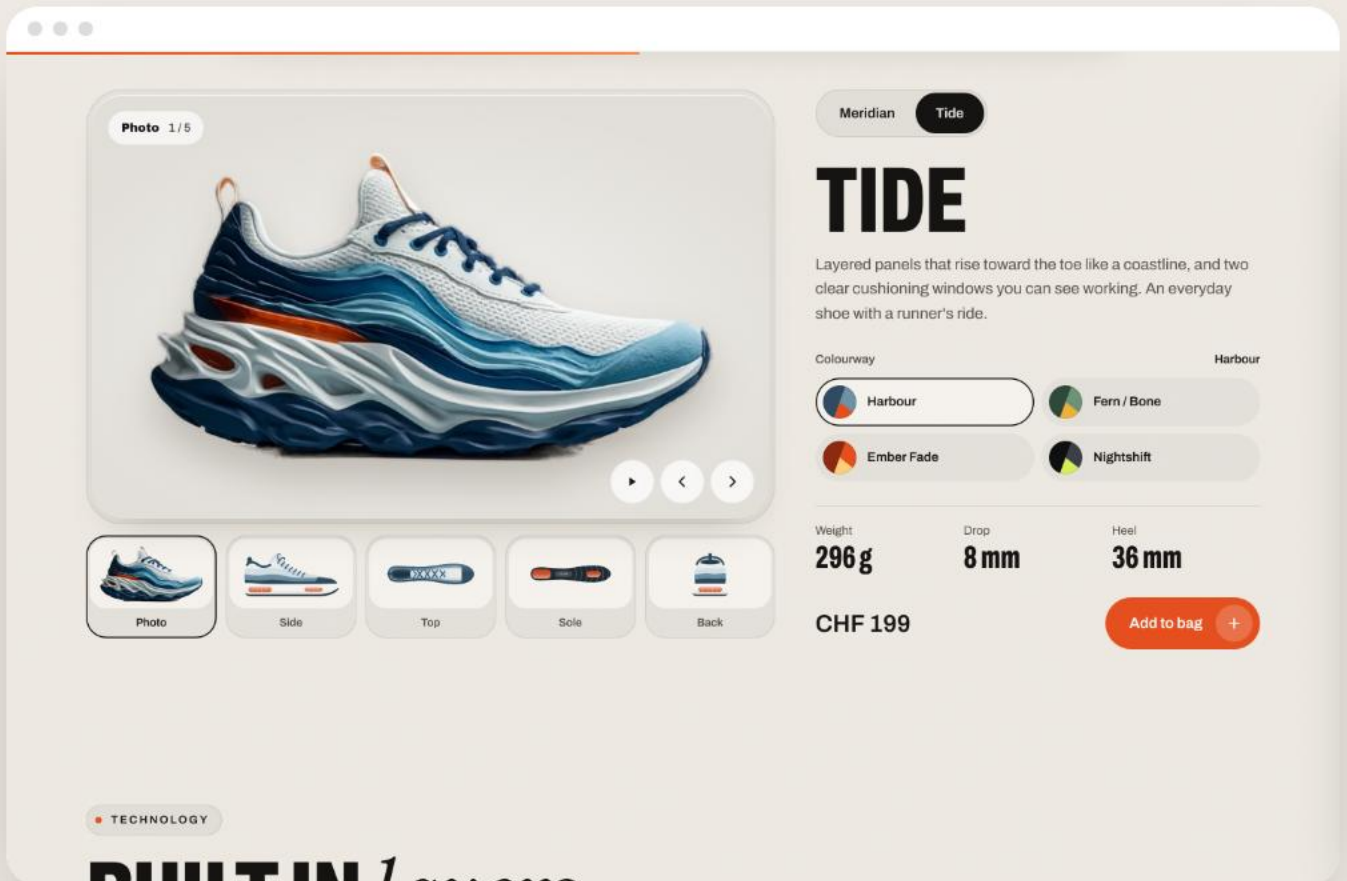

CARDS THAT *invite* A CLICK

- 3D tilt and light reflection on hover
- Filters, quick add and search that really work

PRODUCT VIEWER

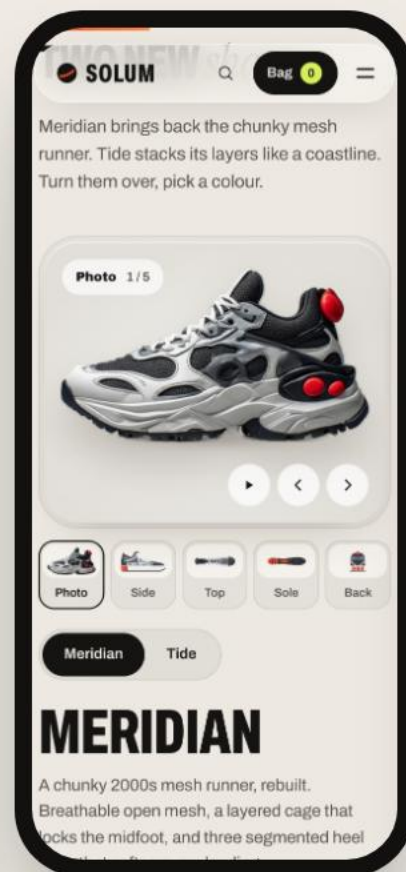

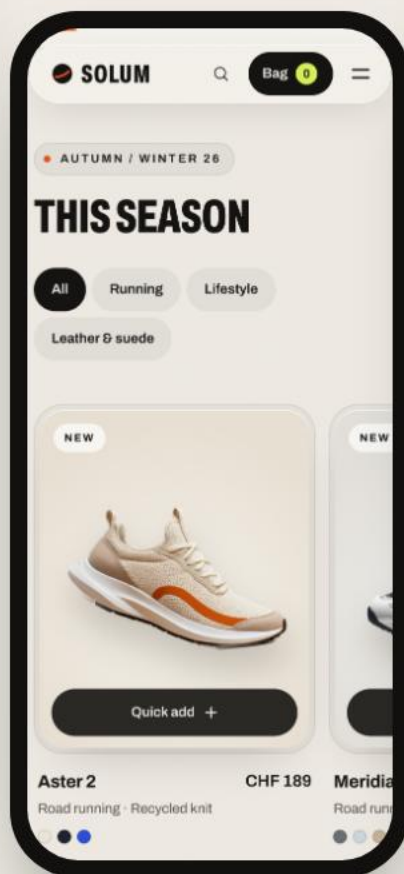

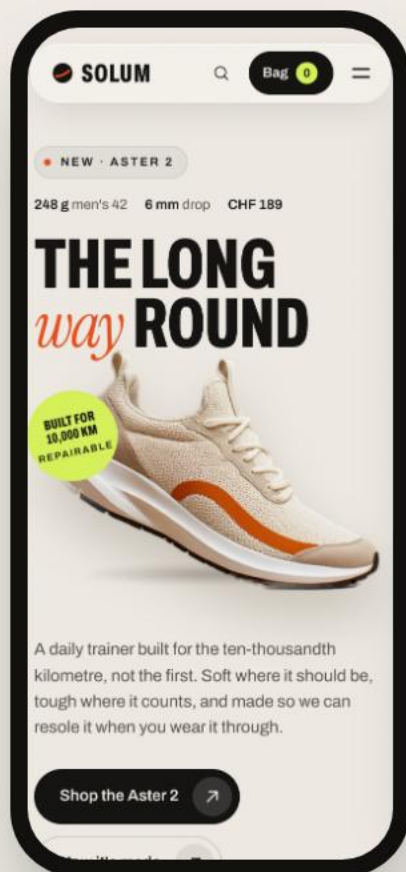

TURN THE SHOE *over*

- Photo, side, top, sole and back view
- Four colourways, turntable, swipe on mobile

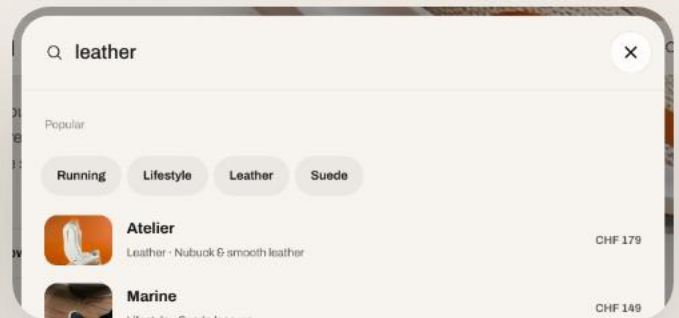

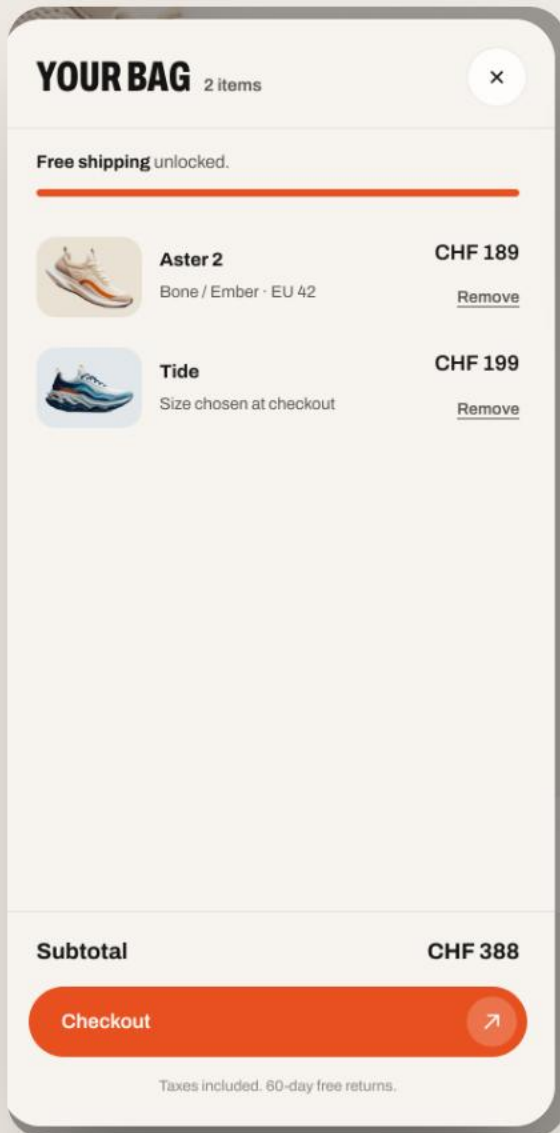

MOBILE

BUILT FOR THE *thumb* FIRST

DETAILS

EVERYTHING *works*

- Bag with subtotal and free-shipping meter
- Live product search
- Filters and quick add
- Calm mode when users turn animations off

● YOUR BRAND NEXT?
